

LEICA SL3

THE 67 COMMANDMENTS

This is the full list of functions which can be enabled or disabled for the purposes of Fn button assignments. Unlike earlier versions of the Leica menu, where a custom list of options had to be created for every single button, this universal list is available to all Fn buttons on the SL3. It is possible to choose, say, just 25 of these functions which could possibly be required for instant access via a Fn button

1. Photo/Video
2. Toggle info levels
3. Magnification
4. Drive mode
5. Interval shooting
6. Exposure bracketing
7. Self-timer
8. Focus mode
9. AF mode
10. Toggle AF/MF
11. Toggle focus point
12. AF Setup
13. AF profiles
14. AF assist lamp
15. Focus aid
16. Auto magnification
